Ferrari F40 '92(v1.1) by F40 LM Lover
It is required CSP 1.76 or above Version.
Some Features are changed or fixed/Added
1. Change Logs
  1) Physics
    -. I'm not good a edit Physics and Some guys not satisfied about the physics and they said that Kunos original physics is better.
      So, The Physics are totally rollback to F40 S3's
      Only differences between two is like below.
      . Weight
      . Engine Power : I don't want to give up faster accellations, Kunos Orignal F40 is slower than Real.
      . Gear Ratios : I don't want to give up regarding Top Speed
      . Tyres : It is Kunos Pirelli Corsa's
      After Roll-back to Original, Its 0 to 100km/h : 4.1sec, 0 to 160km/h : 7.36sec, 0 to 200km/h : 10.86sec, 0 to 300km/h : 28.9sec and Top Speed : 325.4km/h at Nardo test track
    -. If you don't like the physics, there are no options. Because it is kuno's. Best Suggestion is Wating and use "Jandrovi Physics" If he release his physics, You can try it.

  2) Added Emissives & Features
    -. Water Temp alarm, Engine Stalled(You can see the differnecs When You Releasing clutch pedal even shiter is not Neutral)
    -. Added Odometer Main and Trip
    -. Wiered Wiper Animation is Fixed
    -. Turn Signal Blinking Frequencys are Changed
    -. Much Better Gear shifting animation : Thanks to My friend GADU who gives a good time Settings
    -. Interior shadows are fixed by CSP Shader replacement : Thanks to LJSenna
    -. Added Exhaust Flames by leon XD : Thanks to leon XD
    -. Hand Brake Lighting, Battery alarm : Thanks to leon XD

2. Thank you, everyone. See you next car!
